

InfoWerks provides turnkey transition solutions for healthcare buyers and sellers. With data management, analytics, and more, we offer everything needed to make a seamless transition. Here's how we can help!

METRICS & INSIGHTS

We use advanced technology tools to analyze data for insights into acquisitions, business valuation, and other KBLs.

PRINT & DIRECT MAIL

Receive turnkey bundles for rebranding locations and patient-directed mailings to advise of changes, portal access/opportunities, and what actions to take.

INTERFACES

As the pipes for healthcare data, we can move it from any system to any format. We offer real-time and batching, with FHIR-standard APIs. Sharing data made easy.

DATA CONVERSIONS

Seamlessly, securely, and accurately migrate patient records and data from any platform to any software system.

DATA ARCHIVING

Move documents, data, and images to a web-based, secure platform that meets medical record retention requirements and offers print-ready reports for audits.

Why So Many Organizations Choose Us

- Over 30,000 data projects completed
- 24+ years experience in healthcare data management
- Customized process that's healthcare centric
- HIPAA and HITRUST compliant
- Platform agnostic (we've converted data from 150+ systems)
